Post-game quotes - coaches

Dick Nolan - I thought it was a pretty well played game overall. There were mistakes, of course, but no more than you would expect after just a week's practice.

These players are all great athletes, great enough to be able to work together only a week and come up with a pretty good performance. Actually, it was a pretty even game, I thought. Mel's (Renfro) great punt returns were obviously the key things, but I saw some good offense in other areas, too. I thought John Brodie and Fran Tarkenton both called a good game.

(In response to a question about the kicking game) - We worked on our kicking game everyday in practice. We do this with the 49ers, too. I consider the kicking game one of the most important aspects of any game plan.

I've know Mel Renfro a long time. I didn't have to teach him anything. He's a natural, a great football player.

JOHN MADDEN: "It was a defensive game, with both teams doing well on defense. They got two big plays on special teams for touchdowns and that was it.

"Punt and kickoff coverage and other special teams are something we ~~were~~ worried about during the week. These players are all all-stars, but most of them haven't played on kicking teams in several years.

"Yes, I ~~definitely~~ believe Fred Biletnikoff had a touchdown on his reception. The end zone is painted both red and green before it gets to the white sideline. This might have caused ~~some~~ confusion. Fred ~~appeared~~ to take at least two steps before reaching the white marker.

"No, there's no ~~conclusions~~ conclusions about the conferences to be drawn from the game. Neither team controlled the ball, and both defenses ~~were~~ were hitting and tackling well.

"We ~~gave~~ gave all the players nearly equal playing time, and had planned to do this before the game. There were no starters voted, and thus everyone had a chance to play. ~~They are~~ They are all fine players.

"The score may look worse than the way the teams played. It was a defensive 13-6 game except for the punt returns.

~~XXXXXX~~ "Their passing touchdown (to running back Dave ~~Osborn~~ Osborn) was a result of deception. One of our guys was fooled on a play pass action.

"Both teams had trouble on offense early because the defenses were that strong."
